Second Year, IV Semester

4 Credits Probability, Stochastic Process and Operations Research

3 Credits Accounting for Engineers

3 Credits Cyber Security

3 Credits Introduction to Fintech

3 Credits Computer Networks

3 Credits Financial Management

2 Credits Fintech Lab

Third Year, V Semester

3 Credits Software Application Design

3 Credits Embedded and Decentralized Finance

3 Credits Banking Technology

3 Credits Statistics for Finance

3 Credits Operating system

3 Credits Creativity, Problem Solving and Innovation

1 Credit Software Application Design-Lab

1 Credit Banking Technology lab

Third Year, VI Semester

4 Credits Machine Learning & Deep Learning

3 Credits Essentials of Management

3 Credits Capital Markets Technology

3 Credits Program Elective-1

3 Credits Program Elective-2

3 Credits Open Elective

1 Credit Capital Markets Lab

1 Credit Machine Learning Lab

Fourth Year, VII Semester

3 Credits Program Elective-3

3 Credits Program Elective-4

3 Credits Program Elective-5

3 Credits Program Elective-6

3 Credits Program Elective-7

3 Credits Management Research Methods

Fourth Year, VIII Semester

1 Credit Industrial Training Report

12 Credits Project work/Practice school
