

Standard Operating Procedure (SOP) for B.Tech. VII Semester / One-Year (VII–VIII Semester) Internship Students to Complete Program Academic Requirements

A. SOP for Completing VII Semester Elective Course Requirements: 5 Program Electives (PE) and 1 Open Elective (OE)

1. Course Selection Requirements

- **Course Sources:**

NPTEL Courses: https://swayam.gov.in/nc_details/NPTEL. Other SWAYAM Courses: <https://swayam.gov.in>

- **Each selected course must satisfy all of the following requirements:** Credits: 3 or above; Course Level: Undergraduate or Postgraduate; NCrF Level: 4.5 or above; Course Type: Instructor-led SWAYAM-NPTEL Course.
- **Non-Permissible Courses:** SWAYAM+ courses; Self-Paced courses

2. Course Mapping Procedure

- **Initial Course Mapping:** Students shall submit the prescribed course approval form titled: “Form for Mapping SWAYAM-NPTEL Courses to VII Semester Equivalents for B.Tech. VII Semester / 1-Year Internship Students” to their respective Program / SWAYAM Coordinator for verification and approval, followed by submission to the Office of the Dean/Associate Dean of the concerned School. The form shall contain:
 - Details of all six proposed SWAYAM-NPTEL courses & course classification as PE or OE.
 - MIT course equivalence details, wherever available.
 - Details of the designated MIT Course Mentor for each selected course.
 - All other fields as mentioned in the form.
- **Mapping When Current Course Offerings Are Unavailable:** If the updated SWAYAM-NPTEL course catalog for the intended semester is not available at the time of submission:
 - Students may tentatively select courses based on historical SWAYAM-NPTEL offerings from the previous cycles.
 - Such mappings shall be treated as provisional until actual course offerings are announced.
- **Mandatory Revision upon Release of Actual Course Details:** Once the official course offerings become available:
 - Students shall review their tentative mappings.
 - An updated Course Approval Form must be submitted with the latest course details.
 - All modifications must be clearly indicated.
 - Duplicate entries and overlapping records between old and revised submissions must be avoided.

3. Distribution of Courses Across Semesters

Students may distribute their approved SWAYAM-NPTEL courses across: VII Semester (Odd Academic Term) and VIII Semester (Even Academic Term) based on Internship workload; Academic planning requirements; Recommendations of the respective School / Program / Swayam Coordinator. Check the SWAYAM-NPTEL examination schedule in the respective course portal before opting for courses. Overlapping examinations may result in your inability to complete all selected courses on their platform.

4. Program Elective (PE) and Open Elective (OE) Guidelines

- **Program Elective (PE) Courses:** Recommended SWAYAM-NPTEL Program Elective courses shall belong to the student's B.Tech. Program / Academic discipline.
- **Absence of Equivalent MIT Program Elective:** It is possible that a recommended SWAYAM-NPTEL Program Elective may not correspond to any existing MIT Program Elective. In such cases:
 - The “Original MIT Course” field may be left blank.
 - The course must still be clearly identified as a PE or OE.
 - All other course details must be completed.

- **Open Elective Coverage through NCC/NSS/Major Project:** If an Open Elective requirement is being fulfilled through: NCC / NSS / Student Major Project, the same must be explicitly indicated in the Course Approval Form.
- **MIT Course Mentor Requirement:** Details of the designated MIT Course Mentor are mandatory for every selected course, irrespective of whether the course is categorized as: Program Elective (PE), or Open Elective (OE).

5. Approval Workflow and Signatory Requirements

- **Initial Main Course Approval Form:** The first Course Approval Form shall mandatorily bear approvals/signatures from: 1) Associate Director – ILPPS, 2) Program SWAYAM Coordinator, and 3) Dean / Associate Dean / Head.
- **Subsequent Revised/Updated Forms:** For all later submissions involving: Course updates / Course substitutions / Revised mappings / Re-attempt planning, the approvals required shall be from: 1) Program SWAYAM Coordinator and 2) Dean / Associate Dean / Head.

6. Assessment, Completion and Certification Policy

- **Mode of Completion:** Once a student commits to pursuing VII Semester courses through SWAYAM-NPTEL mode:
 - All approved courses must be completed through SWAYAM-NPTEL mode only.
 - The student shall fulfill all academic requirements prescribed by the SWAYAM-NPTEL platform.
- **MIT End Semester Examination Policy:** There is no provision for alternative MIT-Conducted Regular / Makeup End Semester Examination for such SWAYAM-NPTEL courses. No examination requests under any circumstances shall be entertained by the Academic Section.
- **Course Completion Certificate Submission:** Upon successful completion of a course, students shall submit the certificate(s) to their department / school through the prescribed form titled: “*Form to Submit SWAYAM-NPTEL Course Completion Certificate for B.Tech. VII Semester / 1-Year Internship Students*”. The certificate submission must be completed after obtaining approval/signature from the respective MIT Course Mentor. Certificate submissions will not be considered for result processing unless an approved Course Approval (Mapping) Form exists for the respective courses.

7. Failure, Re-attempt and Course Replacement Policy

- **Failure to Successfully Complete a Course in VII Semester:** If a student is unable to successfully complete or clear an approved SWAYAM-NPTEL course during VII Semester, the student may:
 - Re-register for the same course in VIII Semester, or
 - Register for another approved replacement course.
- **Submission of Revised Course Approval Form:** In all such cases, the student shall submit an updated Course Approval Form containing:
 - Details of the unsuccessful course(s),
 - Details of the replacement or re-attempt course(s),
 - Revised mapping information,
 - Required approvals from authorities (except ILPPS).
 - The unsuccessful / cancelled course(s) from VII Semester must be clearly identified in the revised form.
- **Re-attempt Mode:** All re-attempts must be completed exclusively through SWAYAM-NPTEL mode. No MIT-conducted examination provision exists for such courses in either VII Semester or VIII Semester.

8. General Instructions

- Students shall preferably use a PDF editor for completing all forms. Handwritten entries should be avoided to eliminate ambiguity and interpretation errors.
- All submitted information must be accurate, complete and internally consistent.
- Revised submissions must clearly indicate modifications from previously approved versions.
- Duplication between original and revised forms must be avoided.

9. Student Responsibilities

- Select only eligible SWAYAM-NPTEL courses.
- Ensure compliance with credit, level, and NCrF requirements.

- Submit all required approval forms within prescribed timelines. Submit revised forms whenever course details change.
- Successfully complete approved courses through SWAYAM-NPTEL.
- Obtain mentor approvals wherever required.
- Submit completion certificates upon successful course completion.

10. Annexures / Prescribed Forms

Annexure – I: *Form for Mapping SWAYAM-NPTEL Courses to VII Semester Equivalents for B.Tech. VII Semester / 1-Year Internship Students.* Purpose: Initial course mapping; Course approval; Course revision/update; Re-attempt planning.

Annexure – II: *Form to Submit SWAYAM-NPTEL Course Completion Certificate for B.Tech. VII Semester / 1-Year Internship Students.* Purpose: Submission of successful course completion certificates after mentor verification.

B. SOP for Completing the 12-Credit B.Tech. Project Work Requirement of VIII Semester

1. Purpose

- Ensure appropriate academic contribution and alignment of assessment practices with the attainment of prescribed Course Outcomes (COs), Program Outcomes (POs), and Program Specific Outcomes (PSOs) in accordance with the Outcome-Based Education (OBE) framework.
- Ensure fair, consistent, and rubric-based assessment practices in adherence to the institutional academic and assessment framework.

2. Institute-Approved Internship in VII Semester Only

- **Applicability:** Applicable to students who undertake an Institute-approved internship during VII Semester only.
- **Project Work Requirement:** Upon rejoining MIT in VIII Semester, the student shall:
 - Register for a School (Department)-offered Academic/Capstone Project;
 - Work under the supervision of an MIT Faculty Mentor; and
 - Successfully complete the project in accordance with institutional requirements.
- **Minimum Duration Requirement:** The Academic/Capstone Project shall involve a minimum of sixteen (16) weeks of active student engagement as per the institutional academic guidelines.
- **Eligibility for Practice School Mode:** The VII Semester internship alone shall not be considered for fulfillment of the B.Tech. Project Work requirement.

3. Institute-Approved One-Year Internship Across VII and VIII Semesters

• NDA-Restricted Internship

Where a signed Non-Disclosure Agreement (NDA) restricts full disclosure of work in: Synopsis, Progress Reports, Mid-Term Reports, End-Term Reports, Mid-Term Presentations, and End-Term Presentations,

the student shall:

- Register for a School (Department)-offered Academic/Capstone Project;
- Work under the supervision of an MIT Faculty Mentor; and
- Complete a minimum of sixteen (16) weeks of active project engagement.

• Non-NDA Internship

Where no NDA restrictions prevent full disclosure of work:

- The internship may be considered under the Practice School Mode for fulfillment of the B.Tech. Project Work requirement.
- The student shall demonstrate project outcomes through periodic and comprehensive reports and presentations.
- Full disclosure of project activities, outcomes, methodologies and results shall be permissible in Synopsis, Progress Reports, Mid-Term Reports, End-Term Reports, Mid-Term Presentations and End-Term Presentations.

4. Institute-Approved Internship in VII Semester Followed by Another Internship in VIII Semester

- **Important Note:** Office of ILPPS, MIT facilitates only one internship per student. In exceptional cases, a student who secures an additional internship opportunity in a reputed organization, premier institution, research laboratory or academic department during the VIII Semester, independent of the ILPPS-facilitated VII Semester internship, may be permitted to pursue it subject to the recommendation & approval of the respective Dean / Associate Dean and Associate Director, ILPPS. Failing such approval, the student shall return to campus in the VIII Semester and undertake the Academic/Capstone Project offered by the respective School/Department.
- **General Rule:** The VII Semester internship shall not be considered towards fulfillment of the B.Tech. Project Work requirement.
- **NDA-Restricted VIII Semester Internship**
Where the VIII Semester internship is governed by an NDA that restricts full disclosure through reports and presentations, the student shall:
 - Register for a School (Department)-offered Academic/Capstone Project;
 - Work under the supervision of an MIT Faculty Mentor; and
 - Complete a minimum of sixteen (16) weeks of active project engagement.
- **Non-NDA VIII Semester Internship**
Where no NDA restrictions exist during the VIII Semester internship:
 - The VIII Semester internship may be considered under Practice School Mode for fulfillment of the B.Tech. Project Work requirement.
 - The student shall submit periodic progress reports and comprehensive presentations demonstrating project outcomes.
 - Full disclosure of project work shall be permissible.

5. Academic/Capstone Project Requirements

Wherever Academic/Capstone Project Mode is mandated, the following requirements shall apply:

Requirement	Provision
Project Type	School (Department)-offered Academic/Capstone Project
Faculty Supervision	Mandatory MIT Faculty Mentor
Minimum Engagement Period	16 Weeks
Assessment Basis	Institutional Academic and Assessment Framework
Outcome Alignment	COs, POs, and PSOs

6. Summary of Eligibility

Internship Type	NDA Status	Project Work Fulfilment Route
VII Semester Internship Only	Any	Academic/Capstone Project
One-Year Internship (VII–VIII)	NDA Restricted	Academic/Capstone Project
One-Year Internship (VII–VIII)	Non-NDA	Practice School Mode
VII Internship + VIII Internship (Subject to approval)	NDA Restricted in VIII Semester	Academic/Capstone Project
VII Internship + VIII Internship (Subject to approval)	Non-NDA in VIII Semester	Practice School Mode through VIII Sem Internship

C. SOP for Completion of the 1-Credit Industrial Training Report (ITR) Course Requirement

Internship Type	Can be Considered for 1-Credit ITR Requirement?
VII Semester Internship	Yes
VIII Semester Internship	Yes
One-Year Internship (VII & VIII Semesters)	Yes

Subject to:

- Compliance with the Institute Industrial Training Policy; and
- The internship work (non-NDA), in whole or in part, shall not be claimed towards the fulfillment of the B.Tech. Project Work requirement. The same internship outputs or deliverables shall not be submitted for both ITR and B.Tech. Project Work evaluations unless clearly differentiated in scope, objectives and outcomes.

Additionally, to fulfill the ITR requirement, students may undertake industry-oriented skill development courses offered through **SWAYAM Plus**, provided that the certification involves **at least 100 hours of active learning engagement**. Such cases shall be considered subject to the prior approval of the Head of the School.

D. SOP for Minor Specialization

Students undertaking either an Institute-approved VII Semester Internship or One-Year Internship spanning VII and VIII Semesters shall not be permitted to pursue a Minor Specialization concurrently. Students who have already enrolled for a Minor Specialization must withdraw/discontinue the Minor Specialization before proceeding for the internship. Further, such students shall not continue with VII Semester Coursera courses (whether pursued as standalone courses or as part of a minor specialization) and must fulfill the VII Semester PE and OE requirements through approved SWAYAM-NPTEL courses only.

General Instructions

- Submit the physical copies of the following forms, duly filled using a PDF editor, along with the necessary supporting documents:
 - Course Approval (Mapping) Form – at the beginning of the course registration process.
 - Certificate Submission Form – upon successful completion of the course(s).

The forms must be submitted to the respective Program Coordinator / SWAYAM Coordinator for verification and approval, and thereafter to the Office of the Dean / Associate Dean of the concerned School. Please note that the Course Approval (Mapping) Form also requires the approval/signature of the Associate Director, ILPPS. Students who are not physically present on campus are required to facilitate the submission and approval process through an authorized batchmate or representative.

- **Practice School Mode:** Definition – Completion of the B.Tech. VIII semester work requirement by undertaking an Industry / Research Institute / Research Lab internship outside MIT, MAHE.
- Deliverables for Non-NDA Internships (submitted towards fulfillment of the B.Tech. Project Work requirement under the Practice School mode): For internships not covered under an NDA, full disclosure of the actual and/or planned work shall be provided in the Project Synopsis, Progress Reports, Mid-Term and End-Term Reports, and Mid-Term and End-Term Presentations submitted towards fulfillment of the B.Tech. Project Work requirement under the Practice School mode.
- In case of any further clarification, kindly contact your respective Program SWAYAM Coordinator.

Office of Associate Director (Academics)
